Appendix M #1: Reasonable Distance, Recertification Period, Family Share, Very Low Income, Federal and Local Priorities

I. Reasonable Distance

Define "reasonable distance" based on community standards for determining accessible child care.

1. The following defines "reasonable distance":

The following defines "reasonable distance": Child care is accessible when travel distance is no more than thirty (30) minutes one way between the child care provider and the participant's employment / work activity. The thirty (30) minutes of travel is defined as any means of transportation including, but **Herkimer County:** Child Care

not limited to, walking, public transportation, or use of a private vehicle. 2. Describe any steps/consultations made to arrive at your definition: This was discussed with other counties and also within our agency. **II. Recertification Period** The district's recertification period for low income child care cases is every: Six months Twelve months **III. Family Share** "Family Share" is the weekly amount paid towards the costs of the child care services by the child's parent or caretaker. Your district must select a family share percentage from 10% to 35% to use in calculating the amount of family share. The weekly family share of child care costs is calculated by applying the family share percentage against the amount of the family's annual gross income that is in excess of the State Income Standard divided by 52. Family Share Percentage selected by the district: 35% Additional Description of this Family Share Percentage: Note: The family share percentage selected here must match the percentage entered in the Program Matrix in the Welfare Management System IV. Very Low Income Define "very low income" as it is used in determining priorities for child care benefits. "Very Low Income" is defined as **200%** of the State Income Standard. V. Federal and Local Priorities 1. The district must rank the federally mandated priorities. Cases that are ranked 1 have the highest priority for receiving child care assistance. These rankings apply to case closings and case openings. a. Very low income as defined in Section IV: Rank 1 Rank 2 Rank 3 b. Families with incomes up to 200% of the State Income Standard that have a child with special needs and a need for child care: Rank 1 Rank 2

Appendix M #2: Case Openings, Case Closings, and Waiting List

I. Case Openings When Funds Are Limited

If a social services district does not have sufficient funds to provide child care services to all families who are applying, the district may decide to open certain categories of families as funds become available. The district must open federal priorities first. If the district identified local priorities, they must be opened next. **After the federal and local priorities,** identify the basis upon which the district will open cases if funds become available. Select one of the options listed below and describe the process for opening.

\odot	1. Open cases based on FIRST COME, FIRST SERVED .
\bigcirc	2. Open cases based on INCOME .
\bigcirc	3. Open cases based on CATEGORY OF FAMILY .
\bigcirc	4. Open cases based on INCOME AND CATEGORY OF FAMILY .
\bigcirc	5. Open cases based on OTHER CRITERIA .

II. Case Closings When Sufficient Funds Are Not Available

If a social services district does not have sufficient funds to continue to provide child care assistance to all families in its current caseload, the district may decide to discontinue child care assistance to certain categories of families. The district must close federal priorities last. If the district identified local priorities, they must be closed next to last. **After the federal and local priorities**, describe the basis upon which the district will close cases if sufficient funds are not available.

If no priorities are established beyond the federally mandated priorities and all funds are committed,

case closings for families that are not eligible under a child care guarantee and are not under a federally mandated priority must be based on the length of time they have received services (must choose #1 below).

Select one of the options listed below and describe the process for closing.

1. Close cases based on AMOUNT OF TIME receiving child care services.
 If closing based on amount of time...
 The district will close cases starting from the shortest time receiving child care services to the longest time.
 The district will close cases starting from the longest time receiving child care services to the shortest time.

Appendix M #3: Fraud and Abuse Control Activities and Inspections

I. Fraud and Abuse Control Activities

1. Describe below the criteria the district will use to determine which child care subsidy applications suggest a higher than acceptable risk for fraudulent or erroneous child care subsidy payments in addition to procedures for referring such applications to the district's front-end detection system.

The district will use the following FEDS indicators:

- Applicant is working off the books (currently or previously).
- Current application is inconsistent with prior case information.
- No absent parent information or information is inconsistent with the application.
- The applicant cannot provide a birth certificate for a child that is younger than six (6) years of age.
- The applicant is self-employed and is unable to provide adequate business records that support the financial assertions.
- Documents or information provided are inconsistent with the application, such as a different name used for the signature.
- The child care provider resides in the child's household.

2. Describe the sampling methodology used to determine which cases will require verification of an applicant's or recipient's continued need for child care, including, as applicable, verification of participation in employment, education, or other required activities.

The district cannot use criteria such as the age of provider, the gender of provider, a post office box address, or evidence that the child lives in the same residence as the provider as indicators in drawing the sample.

Herkimer County will use 100% sampling methodology. Child care cases are recertified every six months. Information is requested between the 5th. and 6th. month. The district receives and reviews all eligibility information that includes: financial information, child support status, and updated work schedule.

In addition to the 100% sampling the district will: monitor part-time employment when the work hours don't correspond to the pay information. The district will also monitor attendance for CNA training that has guaranteed employment when completed and teen parents still attending high school. A monthly statement will be required for "off the books work" (weekly work hours and pay rate).

3. Describe the sampling methodology used to determine which providers of subsidized child care services will be reviewed for the purpose of comparing the child care provider's attendance forms for children receiving subsidized child care services with any Child and Adult Care Food Program inspection forms to verify that child care was actually provided on the days listed on the attendance forms.

Herkimer County and Mid-York Child Care Council have agreed to provide the Child and Adult Care Food Program inspection forms to the district on a quarterly basis. The Child Care Coordinator will compare the inspection sheet to the child care attendance sheet.

The district will identify all care providers participating in the Food Program. The district will then sample all care providers with county subsidized children.

II. Inspections of Child Care Provider Records and Premises

The district may choose to make announced or unannounced inspections of the records and premises of any provider/program that provides child care for subsidized children to determine if the child care provider is in compliance with applicable laws and regulations and any additional requirements imposed on such a provider by the social services district per 18 NYCRR §415.4(h)(3).

The district has the right to make inspections *prior to subsidized children receiving care* of any child care provider, including care in a home, to determine whether the child care provider is in compliance with applicable laws and regulations and any additional requirements imposed on such a provider by the district.

The district must report violations of regulations as follows:

- 1. Violations by a licensed or registered child care provider must be reported to the applicable Office of Children and Families (OCFS) Regional Office.
- 2. Violations by an enrolled or enrolling legally-exempt child care provider must be reported to the applicable Enrollment Agency.

The district must coordinate with the local Enrollment Agency, including, but not limited to:

- Informing the Enrollment Agency of the intent to request an additional standard.
- Developing the stepwise process referenced in Question 5.
- Ensuring that no significant burden of work shall be incurred by the Enrollment Agency as a result of the additional local standard, unless such work is addressed in a separate contract or a formal agreement is in place, which are referenced in Question 3.
- Sharing any consent/release form that may be required.

 Keeping the Enrollment Agency informed of the approval status.

V. Sleep
1. Does the district choose to pay for child care services while a caretaker that works a second or third shift sleeps?
O No
